

JOURNAL OF THE
CALIFORNIA
MATHEMATICS PROJECT

CALIFORNIA STATE UNIVERSITY STANISLAUS

VOLUME 8

FALL 2017

Introduction

The *Journal of the California Mathematics Project (JCMP)* is a publication of the California Mathematics Project (CMP) and is sponsored by California State University Stanislaus. The journal *JCMP* supplements the official news publication of the CMP, *California Online Mathematics Education Times (COMET)*, (<https://cmpso.org/comet/>).

The *JCMP* mission is communication about mathematics education among educators engaged in the CMP or similar initiatives anywhere. Authors include K-12 teachers, higher education faculty, and others involved with mathematics education, such as graduate students and school leaders. The call for submissions is on-going. We do accept simultaneous submissions, provided that if *JCMP* is the first to accept an article for publication, the *JCMP* publication is cited in all other publications of that article, even in revised form.

The journal accepts a wide variety of submissions, such as brief research and research-to-practice articles, reports of lessons and classroom practice, notes, book reviews. We would particularly welcome reviews of state adopted materials and programs from authors who have experience using them.

Submission and Review of Material for Publication

Manuscripts are accepted in .rtf, .doc/.docx, and .tex formats, using 12 point Times New Roman or a font with similar size and spacing and with 1.25 inch margins on all sides. Articles are published with L^AT_EX, and a production editor will work with authors to confirm publication formatting. List references at the end of the article in alphabetical order by first author last name with appropriate corresponding citations in the text in American Psychological Association (APA) style. See the articles in this volume for examples of appropriate style and length. For more information and access to the electronic submission website, please see:

(<https://sites.google.com/site/californiamathprojectjournal/information-for-authors>)

Submissions will be refereed and may be accepted or returned for revision. Initially, we use a double blind consideration process. To help prepare an article for publication, a referee may reach out to the author to suggest improvement.

Editorial Board

Editor-in-Chief:

Robert Stein, California State University San Bernardino, Emeritus

Associate Editors:

Mark Davis, San Francisco, California

Shandy Hauk, WestEd, Redwood City, California

Angelo Segalla, California State University Long Beach

Viji Sundar, California State University Stanislaus

TABLE OF CONTENTS

Social Justice in Mathematics Education: Acknowledgement–Action–Accountability KYNDALL BROWN AND DIANE KINCH	1
Beyond Drill & Practice: Using Technology to Assess and Promote Reflection in Elementary Students’ Mathematical Explanations MELISSA SOTO	7
Pathways and Pitfalls on the Road to Equity in Mathematics Classrooms ALMA RAMÍREZ AND KATIE SALGUERO	15
Observations on How Students Approach E-Mathematics Courses CASSONDRA LOCHARD	29
Exploring Area with Lattice Polygons ROBERT STEIN	35
BOOK REVIEW – <i>Teaching Mathematics: A Sourcebook of Aids, Activities, and Strategies</i>, Third Edition	43
